Perfil resumen

Experiencia

S

Software Engineer
Softtek
jun 2023 - oct 2025 (2 años, 5 meses)

✓ Software

Software Engineer| Innovation Team
●Developing multiple features for an application that processes large-scale projects using LLM technologies.
●Developed a module that handles similarity search in with FAISS in Python for chatbots, for the Softtek SDK.

S

Software Developer Intern
Softtek – Constellation Brands
ago 2022 - jun 2023 (11 meses)

Software Developer Intern | Integrations Team
●Developed an MS PowerApp application to handle tickets of issues within the development team. The app used MS SharePoint lists as a database and an MS Power Automate flow to generate CSV reports.
●Implemented a testing protocol in a PowerApp application using the PowerApps' Test Studio.
●Helped implement an error handling and alerts protocol in all AWS Glue Jobs and Lambda Functions with Python and a Lambda Function that connects through a hook to a MS Teams team.

Technical Consultant Intern
Ellucian
ene 2022 - mar 2022 (3 meses)

Technical Consultant Intern | Financial Aid Module Team
●Attended meetings with multiple USA-based clients to help them with their specific needs.
●Discussed with other consultants different approaches to each case.

Summer Research Intern
CIMAT
jun 2021 - sep 2021 (4 meses)

Project in conjunction with the UNAM Instituto de Neurobiología.Activities:- Preprocessed markers in key frames from multiple videos. - Trained a deep learning model to extrapolate the markers to the full videos with the DeepLabCut software. - Plot a first draft of the position difference of the markers in all videos. Technologies:- DeepLabCut - Google Collab Programming Languages:- Python

Assistant Analyst Intern
ITESM
ene 2021 - jul 2021 (7 meses)

ITESM's Mujeres en Ingeniería y Ciencia (MIC) Southern Team.Worked with Dr. Claudia V. Pérez-Lezama doing some research for the development of the MIC project.Activities:- Do state of art research about project and strategies to attract, motive and keep women in STEM. - Interview institutes and companies to get to know their projects and strategies about inclusion and mentorship. - Wrote a report about the findings.

Educación

Maestría en Ciencias, Ciencias Computacionales
Instituto Nacional de Astrofísica óptica y ELECTRÓNICA
ago 2024 to Present

Exchange Program
ITMO University
ene 2021 to feb 2021

Competitive Programming and Cybersecurity Bootcamp.

BSc. Computer Science and Technology
ITESM
ago 2017 to dic 2022

GPA 93.24/100. Honorific Mention and best GPA of my major.Specialization: Software Development.Student Groups: Women+Tech, Google DSC.

Insignias

#BeKind - Given by Arelly Aurora Zúñiga Becerril on octubre 23, 2025 at 6:41 pm

"Al priorizar tu salud mental, siembras la semilla de un mundo mejor. Asistir a la semana de A tu salud Mental es acto de amor para ti y los que te rodean ¡Gracias! Well-Being/P&C "

LOURDES BEATRIZ CAJICA MACEDA
CURRICULUM VITAE

lilusa12@gmail.com linkedin.com/in/lourdes-cajica +522212830660

Education:

Instituto Nacional de Astrofísica, Óptica y Electrónica — August 2024 - Present
MSc. Computer Science — GPA 99.86/100

Instituto Tecnológico y de Estudio Superiores de Monterrey — August 2017 - December 2022
BSc. Computer Science and Technology – Honorific Mention — GPA 93.24/100
Specialization in Software Development

ITMO University – Exchange Program — January - February 2021
Competitive Programming and Cybersecurity Bootcamp — GPA 100/100

Experience:

Softtek — June 2023 - Present
Software Engineer| Innovation Team
- Developing multiple features for an application that processes large-scale projects using LLM technologies.
- Developed a module to create document chatbots, using the OpenAI and FAISS libraries in Python, with FastAPI.

Softtek – Constellation Brands — August 2022 - June 2023
Software Developer Intern | Integrations Team
- Developed an MS PowerApp application to handle tickets of issues within the development team. The app used MS SharePoint lists as a database and an MS Power Automate flow to generate CSV reports.
- Implemented a testing protocol in a PowerApp application using the PowerApps' Test Studio.
- Helped implement an error handling and alerts protocol in all AWS Glue Jobs and Lambda Functions with Python and a Lambda Function that connects through a hook to a MS Teams team.

Ellucian — January - March 2022
Technical Consultant Intern | Financial Aid Module Team
- Attended meetings with multiple USA-based clients to help them with their specific needs.
- Discussed with other consultants different approaches to each case.

Major Projects:

Web Development Final Project: Animalist — January - June 2022
- Developed an API with DJango and GraphQL, and an API to call a Classification Model with FastAPI.
- Designed and created a database with PostgreSQL and deployed the three services with Docker in a Centos 7 server in AWS.

Skills:

Programming Languages
Python (advanced), C/C++ (intermediate), Linux Shell (intermediate), Javascript (intermediate), Java (basic).

Technologies
MS PowerApps (advanced), MS Power Automate Flows (intermediate), AWS Lambda Functions (intermediate), AWS Glue Jobs (intermediate), Git/GitHub (intermediate), HTML/CSS (basic), Firebase (basic).

Languages
Spanish (native), English (B2+, 603 TOEFL ITP).
